8. Similar Roles

1. Executive Summary

Executive Summary

This analysis focuses on providing a detailed career pathway for a student in Victoria, Australia, aiming to become an SQL Database Administrator. The analysis leverages the SFIA 9 and DigComp 2.2 frameworks to map current skills, identify skill gaps, and propose educational and career pathways, both with and without a university degree. Recommendations are tailored to the Melbourne, Victoria region, ensuring all educational and professional guidance is locally relevant.

2. Framework-Based Skill Analysis

Skill Mapping

SFIA 9 Framework

Customer Service

Level: 1

Basic level of customer service skills typically involving direct interaction with customers, suitable for entry-level roles such as a crew member at McDonald's.

DigComp 2.2 Framework

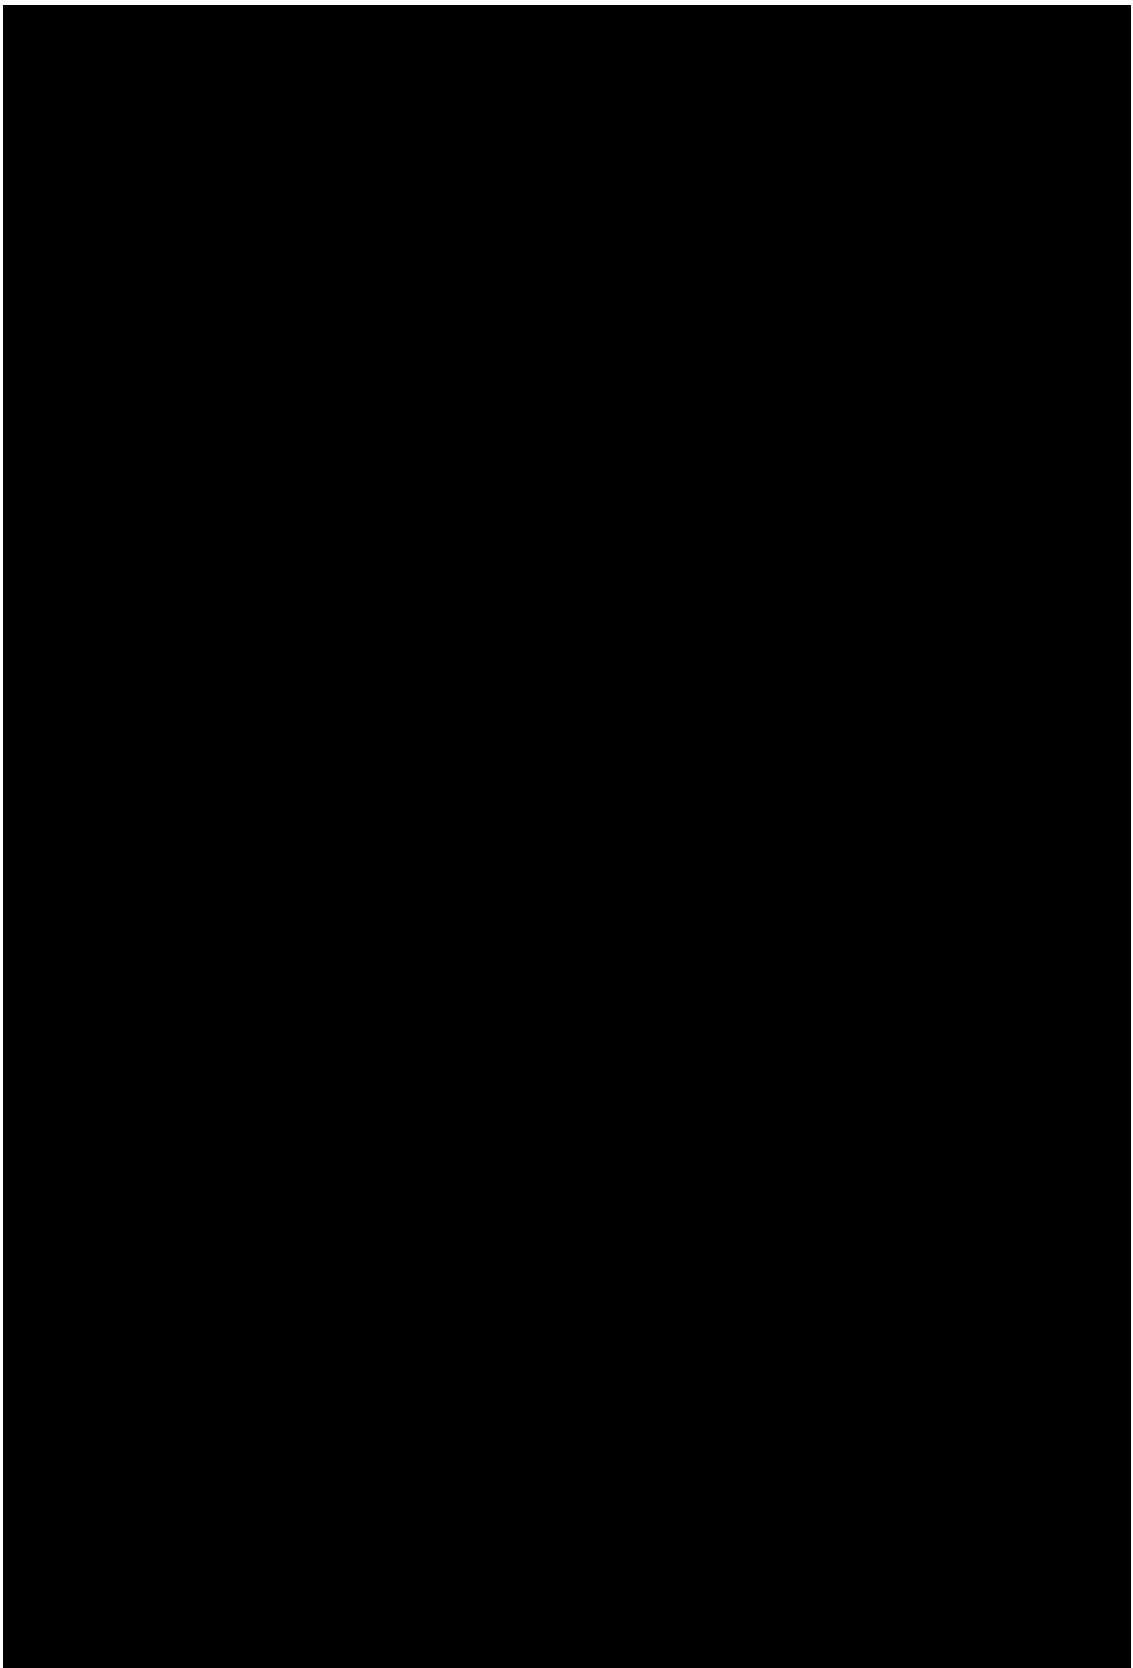

Communication and collaboration

Level: Foundation

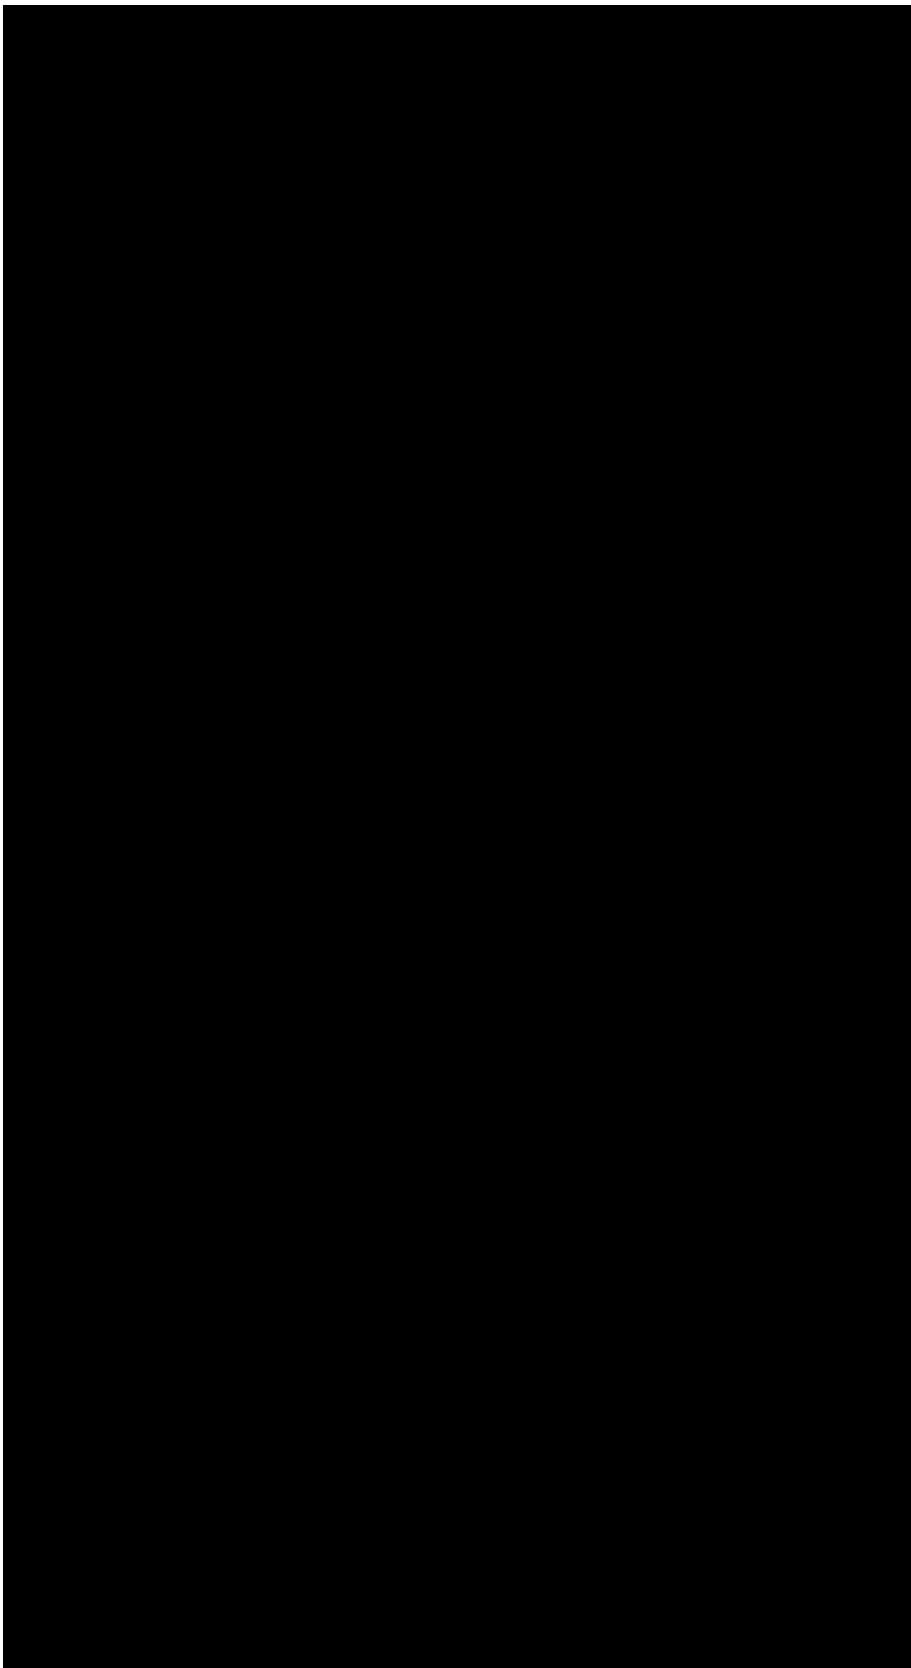

Basic ability to communicate effectively with customers and team members, a fundamental skill developed during customer service roles.

3. Skill Gap Analysis

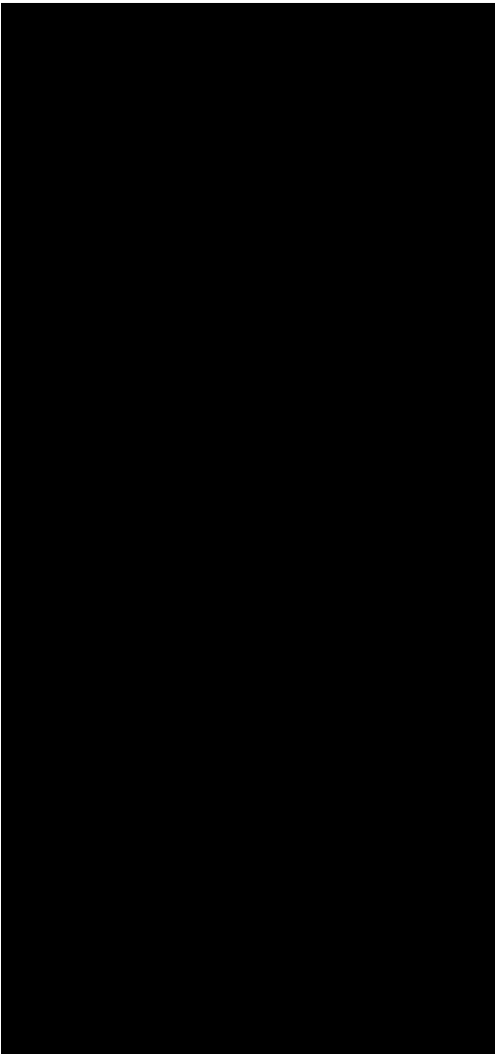

4. University Pathway

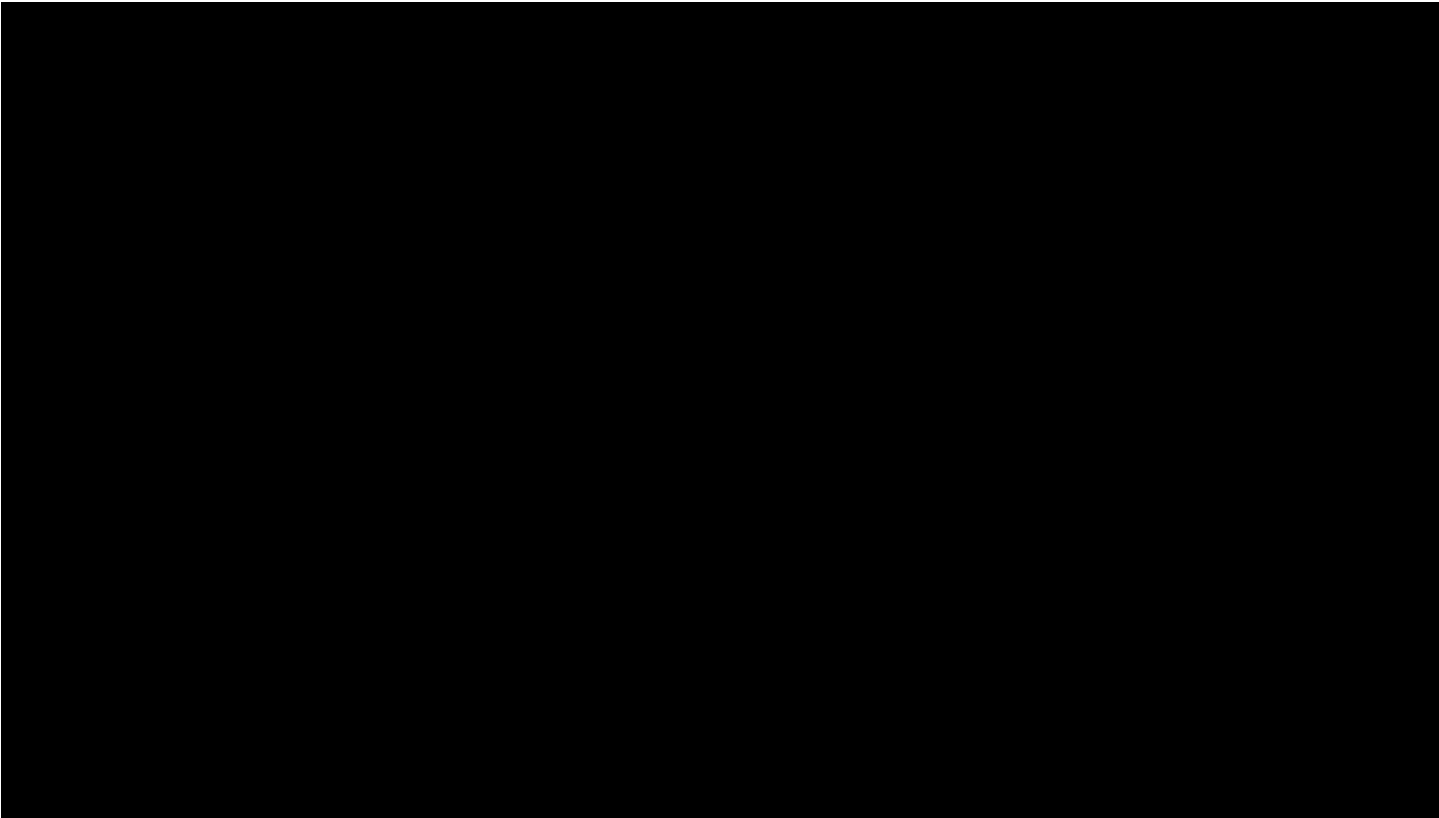

5. TAFE Pathway

6. Development Plan

7. Social Skills Development

8. Similar Roles
